We're in the Comfort Business

(775) 752-3421 | wellspropane.net

To Our Valued Customers,

Summer is finally here, and we're looking forward to another season of sunshine, grilling, and time spent with family and friends. It's also one of our favorite times of the year because Wells Propane's Customer Appreciation Day is just around the corner.

This summer is especially meaningful as we're celebrating 70 years in business! Since 1956, we've been proud to serve this community, and we're incredibly grateful for the customers who have trusted us through the decades. Customer Appreciation Day is our way of saying thank you by giving away some incredible prizes like propane, gas grills, and camping accessories. To learn more about what we're giving away this year, check out the back of this newsletter!

We're also proud to give back to our community. Through donations to organizations like the Boys & Girls Club and other local youth programs, we remain committed to helping our neighbors grow and thrive.

And there's even more good news to share — we're expanding our service area to reach even more homes and businesses! Be sure to check the next page for the full details.

We hope you have a safe and fun summer, and be sure to reach out to our experts with any questions you may have about your propane equipment and needs this season.

- The Wells Propane team

WHAT DOES GAS SMELL LIKE?

Propane is naturally odorless, but an odorant is added to make it easier to detect leaks. The odorant is described to smell like rotten eggs, sulfur, or skunk spray.

What to Do If You Smell Gas

If you smell gas in your home or business, follow these steps:

- ▶▶ **NO FLAMES OR SPARKS.** Immediately put out all smoking materials and other open flames. Do not operate lights, appliances, telephones, or cell phones. Flames or sparks from these sources can trigger an explosion or a fire.
- ▶▶ **LEAVE THE AREA IMMEDIATELY.** Get everyone out of the building or area where you suspect gas is leaking.
- ▶▶ **SHUT OFF THE GAS.** Turn off the main gas supply valve on your propane tank if it is safe to do so. To close the valve, turn it to the right (clockwise).
- ▶▶ **REPORT THE LEAK.** From a neighbor's home or other nearby building away from the gas leak, call Wells Propane right away. If you can't reach us, call 911 or your local fire department.
- ▶▶ **DO NOT RETURN TO THE BUILDING OR AREA** until Wells Propane, an emergency responder, or a qualified service technician determines that it is safe to do so.
- ▶▶ **GET YOUR SYSTEM CHECKED.** Before you attempt to use any of your propane appliances, Wells Propane or a qualified service technician must check your entire system to ensure that it is leak-free.

Wells Propane can be reached at (775) 752-3421 or (775) 753-6788.

PROPANE SAFETY TIPS FOR A SAFE & EASY SUMMER

A few simple propane safety reminders can help keep everything running smoothly all season long.

PROPANE CYLINDER TRANSPORTATION

Always transport your propane cylinders upright and securely in a well-ventilated vehicle, and never leave cylinders in a hot car for an extended period. At home, store cylinders outdoors in an upright position, away from heat sources and high-traffic areas.

Visit a Wells Propane Cylinder Fill Location for all your refill needs this summer!

KEEP AN EYE ON YOUR TANK LEVELS

Running out of propane can interrupt your summer plans! Check your tank gauge regularly, especially during heavy summer use. For added peace of mind, enroll in propane tank monitoring, and our experts will ensure your deliveries are scheduled when you need them!

PROPANE FUELS SUMMER FUN

Summer is grilling season, and we're here for quick, convenient cylinder fills to keep your outdoor fun going strong. More than that, we can help make your fuel supply even more consistent with gas line installations and hookups!

Wells Propane can connect your outdoor appliances directly to your main propane tank, so you don't have to refill cylinders as often. Tie in any of these popular appliances for seamless fuel supply all summer long:

-  **Pool and spa heaters**
-  **Fire pits and fireplaces**
-  **Outdoor kitchens and grills**
-  **Outdoor showers**
-  **Standby generators**
-  **And more!**

CONTACT OUR EXPERTS TODAY TO REQUEST A QUOTE!

INVEST IN APPLIANCE UPGRADES BEFORE THE COLD WEATHER RETURNS

Summer is the perfect time to install or replace propane appliances, such as heating systems and water heaters. Avoid emergency breakdowns, higher energy bills, and inconvenient winter delays by getting ahead of the seasonal rush.

In addition to heating systems and water heaters, Wells Propane installs a variety of other equipment, including fireplaces, ranges and stoves, clothes dryers, and outdoor appliances.

Enjoy more flexible scheduling by requesting an installation with us today.

**NOW SERVING
BATTLE MOUNTAIN
AND EUREKA**

REFER A FRIEND TO WELLS PROPANE

We're expanding propane delivery into Battle Mountain (Lander County) and Eureka (Eureka County). Know someone who lives in the area and could benefit from dependable propane service? We'd be grateful if you referred us to a friend!

SIMPLIFY YOUR FUELING WITH PROPANE TANK MONITORING

Propane tank monitoring is one of the latest industry advancements and makes managing your fuel easier than ever.

-  No more regularly checking your tank gauge
-  Reduced risk of propane runouts
-  Automatic deliveries scheduled based on real-time usage
-  Greater peace of mind year-round
