We're in the Comfort Business (775) 752-3421 | wellspropane.net

Dear Valued Customer,

As the seasons change and the temperature starts to drop, we're reminded of why so many families across Elko, Eureka, and Lander Counties trust propane to keep their homes running. It's reliable, it's affordable, and it's one of the most versatile fuels out there, powering everything from your furnace to your water heater to your stove.

This year also happens to mark 75 years of Wells Propane serving this community, and we couldn't be prouder of that milestone. Even as we've grown to offer the full range of services you'd expect from a large energy provider, we've held onto what got us here in the first place: real relationships and personalized care for every customer, every time. When you call us, you're talking to a neighbor, not a call center.

We're grateful for your continued trust, and we're looking forward to keeping your home warm and comfortable all winter long.

Questions or concerns before the cold weather sets in? Give us a call at (775) 752-3421.

PROPANE SAFETY TIPS

TO KEEP IN MIND THIS SEASON

Propane is one of the safest home energy sources available, and a few simple habits can help keep it that way.

-  Keep the area around your propane tank clear of snow, ice, and debris.
-  Know the smell of propane (often compared to rotten eggs) so you can spot a leak quickly.
-  Never use outdoor propane appliances indoors.
-  Test your carbon monoxide detectors regularly and replace batteries as needed.
-  If you smell gas, leave the area immediately and call us before doing anything else.

A little awareness goes a long way toward keeping your home safe all winter. Visit wellspropane.net/resources/propane-safety/ for even more safety tips.

ENJOY FEWER WORRIES & FULLER TANKS WITH TANK-MONITORED AUTO DELIVERY

Wondering when you'll need your next fill? With tank-monitored auto delivery, you never have to guess.

We use Otodata tank monitors to keep track of your propane level and send those readings straight to our office. When your tank starts running low, we already know, and we schedule your delivery before you have to think about it.

Here's what that means for you:

- ✓ Fewer treks out to the tank to check your gauge.
- ✓ A significantly lower risk of a runout, even during a busy stretch of winter weather.
- ✓ One less thing to manage on your to-do list.

Enroll in tank-monitored auto delivery by calling (775) 752-3421 or visiting wellspropane.net/propane/tank-monitoring/.

IS YOUR HEATING SYSTEM ON ITS LAST LEG?

No matter what happens with your heating system, day or night, we've got you covered with 24/7 emergency service for the propane-powered heating equipment in your home.

And if it's time for a new system altogether, a properly sized replacement runs more efficiently and means fewer surprise repairs down the road.

Reach out to our team to schedule an inspection, installation, or repair.

WARMTH MADE EASY: GAS FIREPLACES

Skip the chopping, hauling, and ash cleanup. A propane fireplace gives you instant heat and ambiance with the flip of a switch, plus cleaner and more consistent warmth than wood or coal.

The experts at Wells Propane will handle the whole project, from running the gas line to installing the fireplace itself.

Ready to cozy up your living room?

Call (775) 752-3421 to schedule your installation.

WINTER ENERGY SAVING TIPS

A few small changes can make a real difference in how comfortable your home feels.

- » Install a programmable thermostat to control the temperature while you're away or out of the house.
- » Enroll in automatic delivery so your propane usage stays consistent and predictable all winter.
- » Keep a clear, shoveled path to your propane tank so deliveries and service calls can happen safely and on schedule.
- » Seal up drafts around windows and doors to help take the strain off your heating system.

The Wells Propane team can help you find more ways to increase your energy efficiency. Contact us today to learn more.

COZY WINTER RECIPE: CROCKPOT LASAGNA

This crowd-pleasing lasagna comes together with minimal effort and serves 8.

Ingredients

- ❑ 1 lb lean ground beef
- ❑ ½ medium yellow onion (diced)
- ❑ 5 garlic cloves (minced)
- ❑ 2 tsp Italian seasoning
- ❑ ½ tsp salt
- ❑ ¼ tsp pepper
- ❑ 24 oz marinara sauce
- ❑ 1 ½ cups water
- ❑ 3 oz fresh spinach (chopped)
- ❑ 8 oz uncooked lasagna noodle (broken into pieces)
- ❑ 2 cups shredded mozzarella
- ❑ 1 cup cottage cheese
- ❑ ⅓ cup shredded Parmesan

Instructions

1. Brown the beef, onion, garlic, and seasonings in a skillet; drain any excess fat.
2. Transfer to a slow cooker and add the marinara, water, spinach, noodles, and 1½ cups of mozzarella. Stir to combine.
3. Gently fold in the cottage cheese, then top with the remaining mozzarella and Parmesan.
4. Cook on low for 3 to 4 hours, until the noodles are tender.
5. Garnish with fresh basil, if desired, and serve warm.
